

A Coat of Arms

Objective: To give participants the opportunity to describe qualities

about their organization or group.

Procedure: Reproduce the coat of arms and distribute to participants.

In space 1, draw something that characterizes a recent

"Peak Performance" in your organization.

In space 2, sketch out something about your organization

that very few people know.

Draw in space 3 a symbol on where you think your

organization is going.

For space 4, fill something the organization is really good at.

In space 5, write or draw something that epitomizes the

mission or vision of the organization.

After each person finished, form triads, and try to identify

what the others' coat of arms signify about the organization.

Ask for several participants to describe their coats of arms to

the group.
